James Barnet held the post of "Colonial Architect" for the NSW government between 1865-90. During that time, Barnet designed and oversaw the building of 130 courthouses, 155 police stations & 20 lighthouses. His major works included the Custom's House, GPO Martin Place and the State Library. In 1870, Barnet was assigned the task of updating the colony's defences at Botany Bay, Newcastle & Middle Head. Most of the fortifications at Middle Head were designed by Barnet and built from 1871, including the Inner & Outer Forts and an extensive network of tunnels. Barnet's work continues to be valued as an orienteering challenge
